## RENEW BILL IN MODIFIED FORM

Mr. Lever's Measure Provides for Agricultural Extension in All of States.

THINKS IT NOW ACCEPTABLE

Appropriations Will Be Direct, and Work Done Under Agricultural Colleges.

[Special to The Times-Dispatch.]  
Washington, September 6.—Representative Lever, of South Carolina, today introduced a modified form of his agricultural extension bill, which, it will be remembered, passed the House unanimously during the last session of the sixty-second Congress and failed in conference.

The modified bill provides for co-operative agricultural extension work between agricultural colleges and the Federal Department of Agriculture along the same lines set forth in the original bill. The modification has been made after numerous conferences between Secretary Houston, the executive committee of the agricultural colleges, the experiment stations, Mr. Lever, and Senator Hoke Smith. The original Lever bill has been followed as closely as practicable, and the only fundamental change is that which brings the extension work of the Federal government and State governments into closer relationship.

To Avoid State of Chaos.  
The Department of Agriculture is now spending eight or nine hundred thousand dollars annually in extension work, and the pressure for this character of work is becoming each day so urgent that it is the opinion of those who have collaborated in framing the new Lever bill that a condition of chaos may eventually develop unless the relationship between the Federal Department of Agriculture and the State colleges is specifically designed by law, as is done in the new bill.

Under the modified form of the lever bill, the actual work is to be done by the agricultural colleges, although there is reserved to the Federal Department of Agriculture the right to agree, in advance, upon the plans of the work. This makes it certain that the fund will be used in accordance with the intention of Congress. The colleges will name the State and local agents and conduct the work along the lines mutually agreed upon by them and the Department of Agriculture. This plan has been thought necessary in order to unify the various lines of work in the different States, and at the same time to bring about more efficiency and economy in the administration of the funds.

Provides Direct Appropriation.  
The bill provides a direct and unconditional appropriation of \$10,000 to each State for field demonstration and home economic work, and an additional sum of \$300,000 a year, and an increasing sum of \$300,000 a year over the previous year for ten years, until the total appropriation shall amount to \$3,400,000 annually. This additional appropriation, however, being conditioned upon the States, receiving the benefit of the act, appropriating an amount equal to that which it is entitled to from the Federal government under the plan of distribution fixed in

## Tyler's EXTRA VALUE

Boys' Norfolk School Suits, in fall weight, with two pairs of trousers; \$7.50 value, for \$5.00

Beautiful line of Children's Fall Hats, in Tyrolean and Milkmaid shapes, in new plush, corduroy, tan and gray wool and cloth, from 50c to \$3.00

FALL HATS.  
Derbies in new English shapes; Soft Hats, fashioned with new quarter and back bow, all shapes, from \$2 to \$5.00

the bill, which is, that the additional appropriations shall be distributed upon the basis of rural population in each State, to the total rural population of the United States.

Representative Lever, who has given years of close thought to this legislation, expresses the opinion that the bill, as introduced, meets the approval of all parties in interest, and that it will be passed speedily at the regular session of Congress next December.

P. H. MCG.

### YUAN-SHI-KAI'S SONS TO BE QUITE ENGLISH

Chinese President's Boys Are Under Lord William Cecil's Wing.  
London, September 6.—Two sons of Yuan-Shi-Kai, President of the Chinese republic, bright, intelligent youngsters, seventeen and fourteen years old, have arrived in England with an English tutor. They spent last week-end with Lord William Cecil at the Rectory, Hatfield.

Lord William, who knows China and Yuan-Shi-Kai himself, is interested in the boys, and has given them numerous introductions to nobilities. The lads cannot speak English. They will be educated at Eton or Harrow, then at Oxford or Cambridge.

### BOLD BOY BANDITS

Armed With Revolver and Dirk, They Hold Up Club Man.  
Washington, September 6.—Mounted bicycle policemen searched the woods in the vicinity of the Washington suburban club until daylight, when they in a vain effort to capture two bold boy-bandits, who held up and robbed Milton Baum, a business man and club member.

The lads, one armed with a revolver and the other with a dirk, wore red bandanna handkerchiefs over their faces after the fashion made popular in yellow novels.

The presence of a mounted policeman within a few yards of the spot where they effected the hold-up did not appear to frighten the young robbers, who deprived Baum of his money, jewelry and other valuables and quietly disappeared into the woods.

### CROPS SUFFERING FOR LACK OF RAIN

Drought in Fredericksburg Section Assumes Distressing Proportions.

[Special to The Times-Dispatch.]  
Fredericksburg, Va., September 6.—The drought has assumed distressing proportions here. It has not rained for several weeks, the crops are withering, streams drying up, the water supply in some sections is becoming almost exhausted, and the situation is critical. Unless rain falls in a few days the farmers will lose immensely. A. B. Gardner, who has been brought in daily from the neighboring county of Stafford, many loads are being brought in, and the melons average between fifty and sixty pounds. The farmers generally, they would make a creditable showing at any exhibition.

The third session of the Fredericksburg State Normal School will open Thursday, September 11. The enrollment some time ago reached a point which taxes the capacity of the institution. Many more scholars could be enrolled, but for the lack of facilities. It is hoped the new dormitory, under way before the session of 1914 begins, will remedy this. The faculty for the coming session is composed of the following: Professor E. L. Russell, president; W. N. Hamlet, mathematics; Miss Margaret Fraser, Latin and social science; B. Y. Tynes, education; Miss Virginia E. Stone, training school supervisor; Miss Olive M. Withers, household arts; Miss Virginia M. Goolrick, history; Miss Dora J. Dammun, English; Miss Anne Anthony, modern languages; Miss Caroline Ruth Jackson, rural arts; Miss Margaret Fraser, vocal music; Miss Nora C. Willis, instrumental music; Miss Cary Graves, director physical education; Miss Marion C. Forbes, registrar; Guyton M. Harrison, assistant in mathematics.

Increased Values Down South.  
The steady increase in the assessed value of property in Southern States has been maintained in recent years. The Manufacturers' Record, "Among the States assessments already announced are \$67,598,726 in Georgia, an increase over 1912 of \$25,340,383; \$578,933,718 in Louisiana, an increase of \$28,415,910; \$1,785,472,124 in Missouri, an increase of \$20,804,645; and \$1,245,000,000 in West Virginia, an increase of \$77,000,000."

## GUARDIAN ANGEL OF PERSECUTED IS TO VISIT U. S.

Russia's Famous Millionaire May Send His Protégés Here to Be Educated.

[Special Cable to The Times-Dispatch.]  
St. Petersburg, September 6.—N. A. Shakhoff, the famous Moscow millionaire, is starting for New York next week on his first visit to the United States.

Mr. Shakhoff is famous throughout Russia as the man who brings up and educates the children of people who have got into political trouble. Some months ago when the political police in St. Petersburg raided the Witmer Academy on the ground that the pupils were reading liberationist literature, the latter were forbidden entrance into any educational institution in Russia. Mr. Shakhoff forthwith defrayed the travel, board and education fees of any of them who wished to complete their training outside of Russia.

Recently the Russian Education Department selected the 5 per cent of Jews, the maximum allowed in the higher educational establishments in Russia, by drawing lots, instead of, as previously, after an examination. Mr. Shakhoff is now sending many of those who had gold medal qualifications, but had not drawn successful lottery numbers, to finish their education in France or Switzerland.

Agacly, the famous Russian feeling displayed both in Geneva University and in the Sorbonne, in Paris, against foreign students.

Mr. Shakhoff says that if conditions there prove unsatisfactory he will inquire during his visit to the United States whether he cannot send his protégés to get an American education.

### MOONSTONES AND OPALS TO DECK FAIR WOMEN

London, September 6.—Moonstones in early Celtic mountings of gold, silver and platinum will be fashionable this season. Black opals are second favorites. Pendant are taking the place of necklets. Earrings have long hanging lobes.

The King Croesus stone, a fire opal from the mine in Asia Minor that King Croesus is said to have worked, is being worn good luck.

Women with a taste for the Oriental are adorning themselves with charms suspended from a long neck chain. They are carved out of amethyst, turquoise, onyx, lapis lazuli, and other stones, and represent peacocks and elephants and strange Eastern beasts.

### SAFER "HARBORS" FOR GERMANY'S AIRSHIPS

Even Subterranean Dock Is Planned for Kaiser's Aerial Dreadnought.  
[Special Cable to The Times-Dispatch.]  
Berlin, September 6.—Germany is providing airships "harbors" along the French and Russian frontiers. Already she has thirty hangars that shelter forty dirigibles, and are supplied with stores of hydrogen and petrol.

New and improved hangars, each capable of holding two Zeppelins, will be built at Darmstadt, Mannheim, Hanover and three other cities. Some will revolve as the wind varies to admit monster airships entering or leaving.

A subterranean dock is planned to protect the airships from overhead attack.

### CLEAN UP NASHVILLE

About Fifty Indictments Returned Against Altered Liquor Dealers.  
Nashville, Tenn., September 6.—Vigorous enforcement of the prohibition laws in this city began to-day, when Judge A. B. Neil, of the Criminal Court, issued bench warrants for four alleged liquor dealers, and the grand jury returned about fifty indictments alleging violation of the prohibition laws. To-day's action was forecast by a recent vigorous charge by Judge Neil.

### HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known down town druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and abundant.—Advertisement.

## COL. HAMILTON His Experience in the Army as Well as in His Home.

COL. HAMILTON. O. U. S. VOLUNTEER INFANTRY

Gallant Spanish-American Soldier Gives Praise to Peru—

Col. Arthur L. Hamilton, of the Seventh Ohio Volunteers, writes as follows:  
"I have used Peruna myself and in my family for the last seven years. I have already written you about the good results I experienced with your remedy during the Spanish-American War."  
"My command used your Peruna during our service in the Spanish-American War, and I will say this, that if the War Department records are consulted, it will be found that the casualties on my regiment were less than in any other regiment of the Army Corps while at Camps Alger, Meade and Bushnell. The total deaths in my regiment during the seven months' service were seven out of a total number of 1400. I, of course, cannot help but think that Peruna certainly was a great benefit to my command."

### Can Now Eat Anything.

Mr. J. W. Pritchard, R. F. D. 12, Box 76, Columbia City, Ind., writes: "I am pleased to say that I have been cured of indigestion of the stomach by Peruna."  
"I could hardly eat anything that agreed with me. Before I would get half through my meal my stomach would fill with gas, causing me much distress and unpleasant feelings for an hour or two after each meal."  
"But, thanks to your Peruna, I am now completely cured, and can eat anything I want to without any of the distressing symptoms. I can now enjoy my meals as I used to do, and it is all due to Dr. Hartman and his wonderful medicine, Peruna."

"It had been one year since I was cured, and I am all O. K. yet, so I know I am cured."

### "AUTOMATIC SOLDIER" DEADLIEST OF WEAPONS

Paris, September 6.—"The automatic soldier," the deadliest instrument of war ever devised, has been patented by a Danish engineer, it is reported. This machine is governed by wireless telegraphy from a distance of five miles if need be. It consists of a steel cylinder sunk vertically in the earth and containing another cylinder which rises out of the ground when the delicate machinery is set in motion by wireless.

In the second cylinder is affixed an automatic rifle, which immediately pumps bullets in the direction in which it is pointed, firing 400 times with speed and accuracy.

Then the rifle and its cylinder sinks back into the buried cylinder, where the secret is of royalty.

Some hundreds of such automata could defend a position against a large force of infantry.

### MRS. BELMONT IN PANKHURST SECRET COUNCIL

At American's Deauville Villa Mysterious Militant Campaign Has Been Planned.

London, September 6.—Mrs. Oliver H. Belmont, the Duchess of Marlborough's mother, is now one of the leaders of the English suffragettes, and one of the militants at that. But she leads in their councils, not in the field, in open conflict.

Mrs. Belmont wondered why Mrs. Pankhurst should select so mundane a spot as gay Deauville for a rest cure, but she did not know that Mrs. Belmont has a villa there.

In that villa many councils of four have been held, and Mrs. Belmont, Mrs. Pankhurst, Miss Christobel Pankhurst and Miss Annie Kenney, their faithful lieutenant.

Every one wondered why Mrs. Pankhurst should select so mundane a spot as gay Deauville for a rest cure, but she did not know that Mrs. Belmont has a villa there.

Exactly what the mysterious new suffragette campaign will be nobody outside the four leaders can say. But from an incautious word dropped by the fair Miss Christobel when strolling with Mrs. Belmont, the other day, it is surmised that a very serious and even more prominently to the attention of the royal family is going to be made scarcely worth living.

### NEGRO HELD AS WHITE-SLAVER.

Franklin Will Be Taken to Lynchburg to Stand Trial.  
[Special to The Times-Dispatch.]  
Winchester, Va., September 6.—Sam Franklin, a mulatto, who was captured recently at Gracemont, Pa., by Special Agent Gruenewald, of the Department of Justice, of Baltimore, and Lieutenant Conrad, of the Tenth United States Cavalry, after escaping during a spectacular midnight raid upon Franklin's tent on the edge of the army camp here, was to-day taken to Lynchburg and will be tried next week on charges of violating three sections of the Federal white slave act.

Letters held by the authorities show Franklin induced white girls to come here from Burlington, Vt., New York City, Washington, and elsewhere. Irene Whalen, chief witness for the government, now at the Florence Crittenton home in Baltimore, will accompany Gruenewald to Lynchburg Monday. Several army officers and troopers and local officials were subpoenaed here to-day.

## FLAMING GASOLINE COVERS PHYSICIAN MAY CENTRE FIGHT IN NINTH DISTRICT

Dr. S. S. Snarr, of Lebanon Church, in Serious Condition as Result of Explosion.

Winchester, Va., September 6.—Francis with pain and suffering tortures as the result of a gasoline explosion, Dr. S. S. Snarr, of Lebanon Church, Shenandoah County, was rushed to Memorial Hospital here early this morning, and is still in a serious condition. With a piece of rubber hose, Dr. Snarr was drawing gasoline from a tank to supply his automobile. To create suction he put an end in his mouth to draw it through the tube, and in spitting the fluid out, some came in contact with a lantern nearby, causing an explosion.

As the hose was jerked from the tank one end struck the physician, throwing flaming gasoline in his mouth and on his neck and face. He literally put out the fire in his mouth by stuffing it with a handkerchief.

A fellow-physician, who was called, found Dr. Snarr in intense agony. Opium afforded some relief until he was brought here.

## No Better School

Son's Improvement Wonderful at Bingham School, Mebane, N. C.

Gate City, Va., June 13, 1913.  
Col. Preston Lewis Gray, Bingham School, Mebane, N. C.

Dear Colonel Gray:—Since receiving Leland's grade for the closing month of your spring term and his returning to school, I have been thinking of writing you to express my gratification at the rapid improvement that he has made in all of his studies, as well as in his deportment and general appearance, during the past session of your school.

I feel that there is no better training school in the South, with its various advantages and the restraint that is thrown around a boy, the school being situated where it is entirely free from the bustle and noise, as well as the vices, of city life. The healthful climate and the proper and thorough training in all the departments cannot be excelled anywhere. In fact, my son's improvement has been so wonderful in every respect that I consider the Bingham School, near Mebane, N. C., one of the best preparatory schools in the South.

With kindest regards to you and Mrs. Gray,  
Yours sincerely,  
J. T. McCONNELL.

For handsome catalogue of Bingham School, sent free, address Col. Preston Lewis Gray, B. L. President, Bingham School, Mebane, N. C. Box 26.—Advertisement.
